GRAND JURY WILL BRING SURPRISES

RUMOR IS THAT THE JURY WILL
COME IN WITH MANY
INDICTMENTS.

TO CALL DOCKET TOMORROW

Many Cases Placed on Trial List By
Judge Heard—Grand Jury Has
Much Work Ahead.

Despite the number of cases that were stricken from the docket at the September term of circuit court the present term, which Judge O. E. Heard convened yesterday, promises to be a particularly busy one. The docket shows five more cases now that it did at the start of last term, there being 166 cases entered against 161 at the beginning of the last term, and it is rumored about the court house that the grand jury will furnish an extraordinarily large number for an inquisitorial body.

It is known that an unusually large number of matters have been referred to the grand jury by justices during the past four months, and in addition to these it is known that the grand jurors are doing some investigation in matters that have not been aired in any court of justice. As a result of the amount of work before them it is certain the grand jurors will not report until late tomorrow afternoon on Thursday.

SCHOOL NURSE HAS STARTED HER WORK

MISS NEVA McCLEARY TAKES
UP DUTIES OF CARING FOR
THE CHILDREN.

HER RANGE OF WORK IS WIDE

Afternoons to Be Taken Up With
Examination of Pupils and Mornings
With Visiting Homes.

Miss Neva McCleary, the visiting nurse and special examiner of the south side schools, is in charge of her office and in the midst of her duties, having started her work yesterday.

The capable young lady has a life sized position to fill. Her work is far reaching and will result in great good, is the firm belief of the school board. She will have a busy schedule, every afternoon of the school week being taken up with examination of students and the mornings with visiting homes and office work. The examination hours in the south side schools will be as follows:

Truman school, Monday p. m.

Woodworth school, Tuesday p. m.

E. C. Smith school, Wednesday p. m.

Central grades high school building, Thursday p. m.

High school, Friday p. m.

The first week or so of the examination will be confined to getting acquainted and gaining the confidence of the students. All talks and examinations will be private and the instructors in the various grades will be of great assistance, as they are in many cases already acquainted with the faults and ailments of the pupils. Eye, ear, throat and teeth examinations will play a great part in the work, for many of the troubles with the students lie in the neglect of these important attributes of health. Uncleanliness and lack of care at home will be watched for and contagious diseases will be detected quickly.

Absence from school will be looked into and cases of sickness will be investigated in the homes. The work of Miss McCleary is already having a noticeable effect on the children and several cases have been reported of the little girls' and boys' activities with soap and scrub brush at home, against the examination by the nurse.

J. A. LLOYD ON LECTURE TOUR

HERALDED IN RACINE, WIS., AS
MARK TWAIN THE
SECOND.

J. A. Lloyd of Dixon is now in Freeport on his annual lecture tour thorough several of the large cities of Illinois and Wisconsin. We clip the following from a Racine paper: "On Friday, Jan. 16, there will be an extraordinary attraction at the Bijou theatre. Prof. J. A. Lloyd, known as Mark Twain No. II, the world's greatest humorist, has been secured by Manager McKivits. He will appear afternoon and evening. The afternoon will be devoted to school children. His lectures and pictures in the afternoon will be on "200 Miles in Mammoth Cave." The school children will be dismissed early in the afternoon for the lecture."

Mr. Lloyd had a large audience at the Freeport Y. M. C. A. The present circuit will end before the Y. M. C. A. in Aurora. At the request of many Dixon friends, he will try to show the wonders of Mammoth Cave to the public and schools of this city, before starting on a southern tour.

Mr. Lloyd is special correspondent for the Evening Telegraph.

ELOPED WITH GIRL IS NOW IN JAIL

DUBUQUE BOY RAN AWAY WITH
FOURTEEN-YEAR OLD
LASSIE.

Belvidere, Jan. 6—When Alfred Mitchell ran away from Dubuque, Iowa, several days ago taking 14-year old Virginia Flood with him, he perhaps did not realize the serious nature of the offense he was committing. Last night he landed in the Belvidere jail, the girl was taken in charge by Capt. Stonebraker and wife of the Salvation Army and today the irate father arrived from Dubuque.

Fourteen-year-old Virginia, who is large and well matured and told the police here that she is nineteen, has agreed to return home with her parent. Mitchell has his choice of going back to Dubuque to face the music, or facing charges under the Mann act here. He is 20 years old.

GOSSARD FACTORY WANTS 50 GIRLS

DIXON FACTORY PLANS BIG RUN
AND ADVERTISES FOR
MORE HELP.

The Gossard corset factory in this city has received orders to operate to full capacity at once and as a result the superintendent has been forced to advertise for additional help. In this evening's issue of the Telegraph appears the company's advertisement for fifty women and girls who are wanted at the local plant at once. Good wages and steady employment are promised, indicating that the factory will be operated to the limit the coming year, and foretelling great success for the company.

MRS. MARTHA MAJOR IS CALLED BEYOND

BELOVED DIXON LADY PASSES
AWAY AFTER YEARS OF
SUFFERING.

Mrs. Martha Ann Major, a well known and greatly beloved resident of this city, passed away this morning at 2 o'clock at her home, 1211 W. Third street. She has suffered many years with cancer.

Mrs. Major was born in Newcastle, Ind., May 19, 1855. For the past twenty years she resided in Dixon. Six children survive. They are: Lawrence, Champaign; Mrs. John Seibolt, Mrs. Roy Wolber, Harry and Charles, all of Dixon, and Mrs. Chas. Johnson of Freeport.

The funeral will be held from the home Thursday at 2 p. m. with Rev. Fisher in charge. Burial will be in Oakwood.

Mrs. Major was a woman of beautiful personality. For 21 years she has been a member of the Christian church. During her life in Dixon she has gathered around her a large circle of friends who loved her devotedly in life and who now mourn the passing of their good friend and companion.

Self's bowlers took three straight games from Lievan's team at the Valle alleys last evening, thereby starting the new year with promise of going after Reiley's hard hitting pin hitters, who at present are so far in the lead that the rest of the teams can hardly see their dust. The scores last evening:

Sterling Wins.

Sterling Y. M. C. A. athletes gained a much coveted victory over Dixon last evening but their joy is not full in any way, because the victory was not in any scheduled inter-association contest. One of the city league bowling teams of the Sterling association wanted some practice and accordingly phoned Dixon and asked that some kind of game be arranged. Accordingly the Presbyterian team of the church league was pressed into service and three games played, Sterling winning by 45 pins. The lineup:

Dixon: Raymond, Read, Lotter, Stephenson, Anderson.

Sterling: Hull, Baker, Rose, Royer and Linn.

Game Tonight.

Because of the game with Sterling the Lutheran and Christian teams of the church league could not meet last evening as planned and accordingly they will play tonight.

Reiley's leaders in the City league will meet Poole's team at the Brunswick alleys tomorrow night, and the "laundrymen" will make a determined effort to stop the freight handlers in their runaway race.

ALFA SNYDER OF SCARBORO FREED

CHARGE AGAINST YOUNG MAN
DISMISSED BY THE COUNTY
COURT MONDAY.

On motion of States Attorney Edwards the case against Alfa Snyder of Scarboro was dismissed by County Judge Scott yesterday afternoon. Snyder, it will be remembered, was charged with a serious crime by a Scarboro young woman and was held to the county court by Justice Gotant. The passing of time established the fact that there was no case against the young fellow, consequently the motion to dismiss on the part of the prosecution.

LICENSED TO WED

A marriage license was issued yesterday to Wm. M. Finch and Miss Inez M. Walters, both of Amboy.

FIRE AND AUCTION SALES UNDER A BAN

NEW LAW IN SISTER STATE WILL
PREVENT FAKE SALES
THERE.

LICENSE OF \$200 REQUIRED

Act Will Protect the Legitimate Merchants and the Gullible Public.

Temporary or transient merchants cannot lawfully do business in Iowa without paying a license of \$200 to the county treasurer and receiving a permit from the county auditor nor can they under any circumstances advertise fake sales, railway wreck, bankrupt sales, etc. The penalty is double the amount of the license, according to the new law, enacted by the last general assembly and in effect.

The act is aimed to protect legitimate merchants and at the same time protect a gullible public from being taken in by the sale schemes of bygone days.

Must Swear to Facts.

Under the provisions of the law it is unlawful for any temporary or transient merchant to advertise or represent any goods, wares or merchandise as being sold as an insurance, bankrupt, trustee, railway wreck, insolvent, assignee, executor, administrator or closing out sale or as a sale of goods or merchandise damaged by fire, water, smoke or otherwise unless such transient merchant shall have filed with the county auditor an affidavit showing all the facts relating to the reasons for and character of such sales so advertised or represented. The affidavit must state that the goods are in fact in accordance with the advertisement and representation and must give the name of the persons from whom the goods are being obtained, the place from where the goods were last taken and the date of delivery to the transient merchant. If the auditor shall learn that the affidavit is untrue he shall refuse a license.

License is Necessary.

Before conducting a sale of any kind the transient merchant must pay into the office of the county treasurer \$200 as a license fee for a period of not exceeding one year and then secure his license from the county auditor. The license shall not be issued in the name of more than one person or firm and shall also cover not more than one place of business.

The new law, however does not apply to sales made to dealers by traveling men or selling agents in the usual course of business, or to sheriffs, constables, bona fide assignees, receivers or trustees in bankruptcy or other public office, or to any person selling farm or garden produce.

INSURANCE MEN TO INSPECT THIS CITY

COMPANIES WILL INVESTIGATE
CONDITIONS HERE ON
JANUARY 28.

Dixon will be inspected by representatives of the fire insurance companies doing business here on Jan. 28, the inspectors to be in charge of Frank S. Chase of the New Hampshire company as chairman and John Dreihls of the Concordia as speaker.

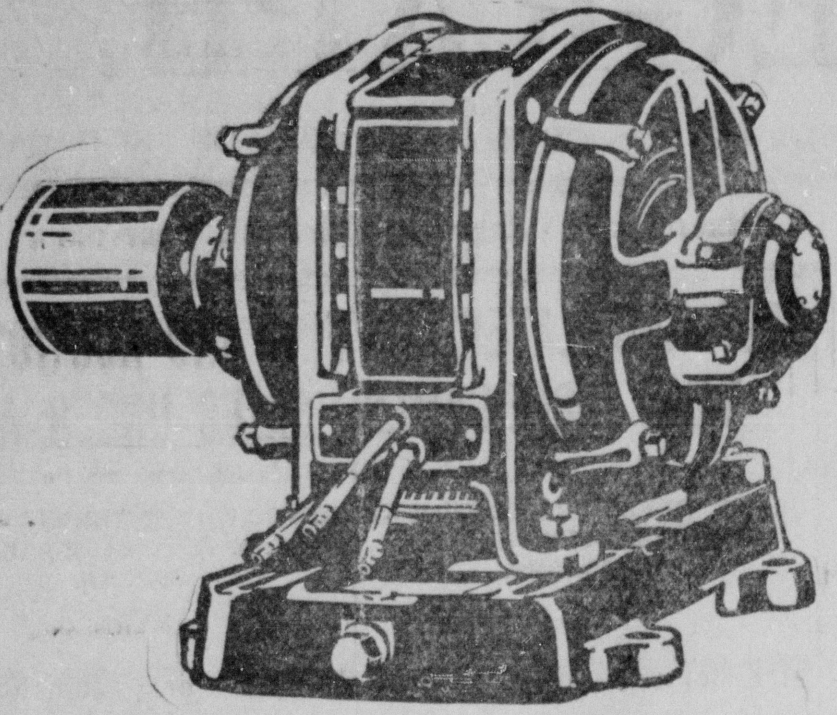

On that date the up-to-date fire equipment of the city will be noted, but also the conditions of property will be reported and on the manner in which risks are prevented will depend the report to go out to the insurance world. A concerted effort to remove rubbish and dangerous conditions may do much more to better insurance rates in the city.

LICENSED TO WED

Marriage licenses were issued today to Clarence Ogle and Miss Emma Krug of Ashton and August M. Zanders of Chicago and Miss Maude Mildred Reynolds of this city.

SON BORN

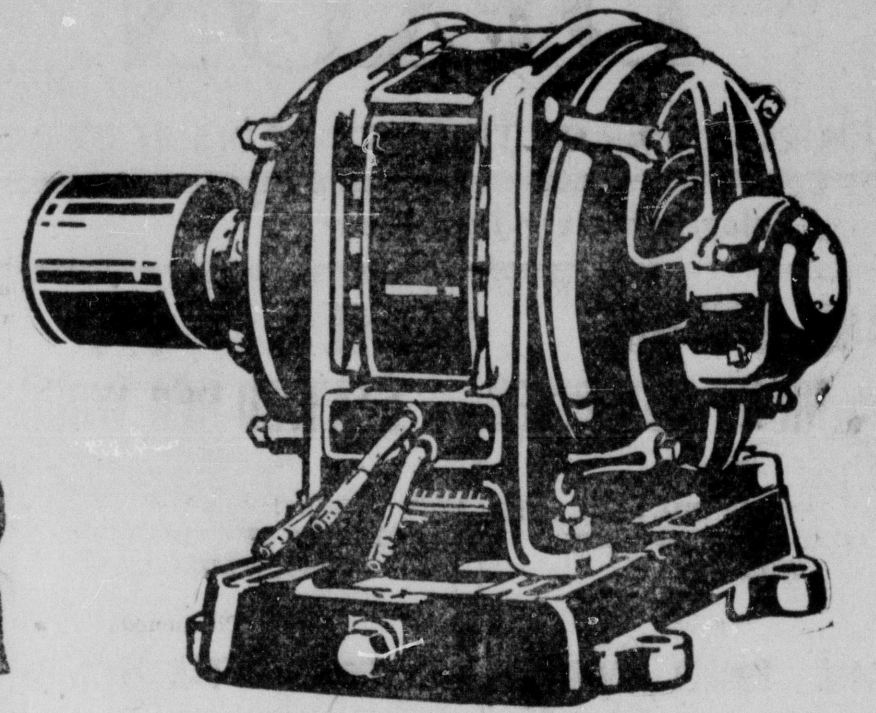

A son was born to Mr. and Mrs. Charles Maxwell of Harmon yesterday.

ENERGY

when applied to doing useful work is.
universally designated as

POWER

The vast, mysterious plane of the sea tempted the imagination of man and he ventured on it.

Thus he learned that the wind when opposed with a piece of cloth was a **Force** or **Power** that **would drive** his craft.

This was knowledge that there was a source of power outside of mere brute strength.

It was gained so long ago that the ablest scientists content themselves by generalizing the date.

Ages passed. Magnificent civilizations rose, decayed, perished and were succeeded by others grander. But men long knew nothing of any other **Power** than that of the wind. They

learned slowly to a limited extent the power of water. But they did not dream that the fierce energy of the Sun was imprisoned in buried mineralized forests - not for thousands of years.

Then the power of Steam was discovered and the Steam Engine was invented. It made a Revolution.

Revolution. The word comes trippingly on the tongue, but its **meaning is tremendous. It implies changes that may be cataclysmic.**

The Steam Engine changed the face of the earth. It altered history. It sent the race forward further in one century than in the previous ten. **It fixed standards so high that the steam engine itself could not reach**

them for it is giving way to the Electric Motor.

In this Electric Age no new plant is built except to run on Electric Motor drive. Fortunes in new steam machinery are often charged off to make room for it.

There be in the observation of anyone notes that dance in the Sunbeams a moment then melt into the shadows. **A thing to last must have the "stuff" in it.**

A thing that crowds out other good things from a circle that expands without ceasing must be superlatively good.

What are the special merits of Electric Power? Let's see.

ELECTRIC POWER

Flexibility The huge lock gates on the Panama Canal are controlled by Electric Power. Many tiny dental drills connected to our lines are operated by it. Electric Power will run any machine

Adaptability In innumerable mechanical conditions, steam power is impracticable and hand power means turning back the clock 100 years. Electric Power will meet any condition. There is a motor made for every machine.

Simplicity An Electric Motor involves a minimum number of fixed and moving parts. Only two bearings require lubrication and there is an automatic arrangement for this.

Control Elementary in its simplicity—just a little switch. Anyone can operate an Electric Motor. It's more nearly fool proof than any machine.

Saving in Room The motor can be put in any out of the way corner—a tremendously powerful one takes up but little space—and controlled from the tool it actuates. Steam power demands a large share of shop area.

Efficiency An Electric Motor delivers all of its power to the machine or tool it operates. Belting and shafting consume a large share of the power of the steam engine.

Cleanliness Oily, drippy connections bar steam from many industries. Electric Motors make no dirt.

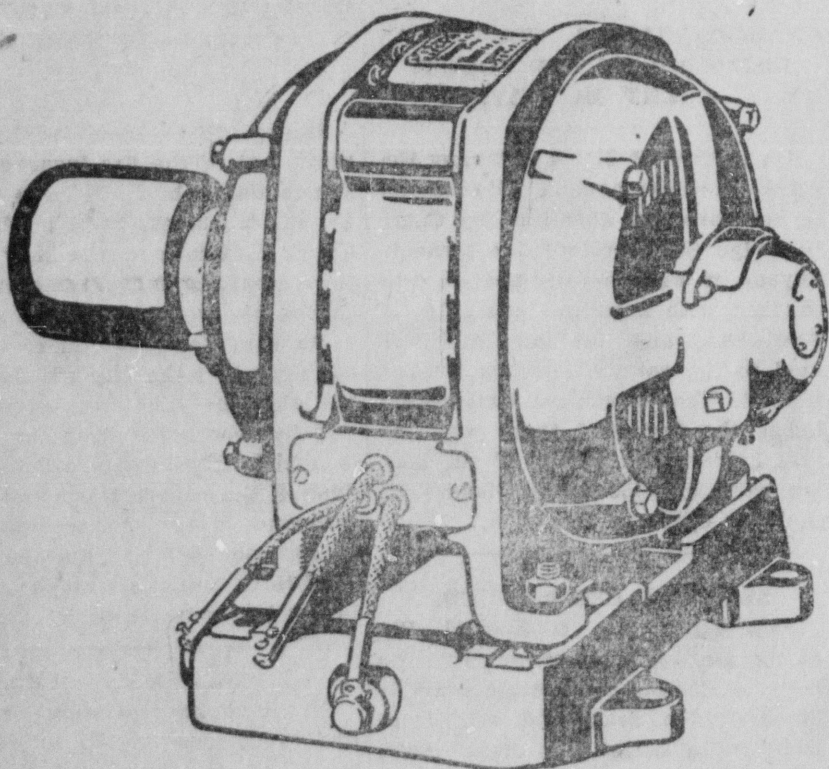

Response Any workman knows what it means to handle a tool that obeys him instantly. Nothing like Electric Motor Drive in this respect.

Readiness for Work If your plant is connected with our lines its ready to start day or night. The turn of a switch does it. The power is always on.

High Speed Goods must be good goods and they must be moved out rapidly to win in the race of competition. No such helper as Electric Power.

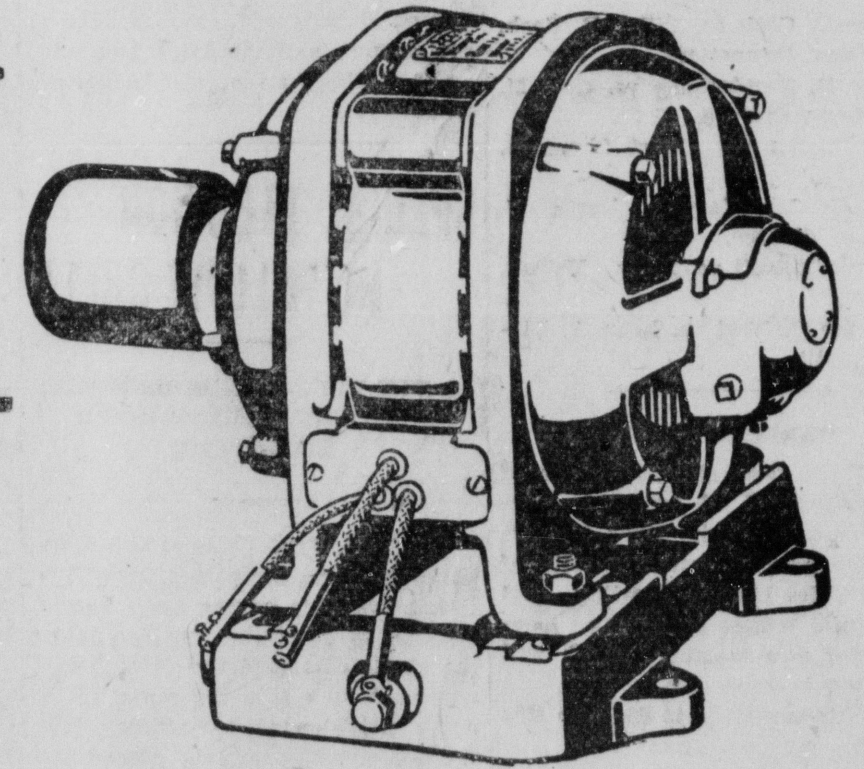

The Worry Question It's always obtrusive when there are the weak points of a steam system to think about. Not present with Electric Motors. They run.

Economy Electric Power will increase earnings because each tool is supplied with just the power to get the most out of it. It will decrease expense because the power costs just in proportion to the work the motor does. It costs you nothing when the machines are not running. **You pay for what you get and you get what pay you for.**

**We Sell Electric Power
to Meet Any Demand**

**Illinois Northern
Utilities Company**

SEEK HUGE RESERVE

Gotham Bankers Want Half of U. S. Capital.

Vanderlip Says Committee Will Find It Impossible to Find Plan to Meet Requirements.

New York, Jan. 6.—Fifty men, representing at least \$700,000,000 bank capital, appeared before Secretary of the Treasury McAdoo and Secretary of Agriculture Houston for the first hearing held in the United States of the new federal reserve organization committee, designated under the new currency law. Upon their facts and figures as presented to the two members of the committee will depend New York's chances of being made a reserve center of one of the eight regions prescribed under the currency law and the establishment here of a federal bank regulated by the new law.

It quickly developed that it probably would be impossible to satisfy both New York and the rest of the country, since New York desires to have approximately one-half of the \$106,000,000 capital available for all the regional banks in the country assigned to the regional bank here.

Charles A. Conant, financial expert and writer, summarized the bankers' opinions expressed when he said: "It would be better to have one strong regional bank and seven puny ones than eight puny banks."

Frank A. Vanderlip, president of the National City bank, said he thought the committee would find it impossible to work out a plan that would fulfill all requirements.

The majority of the witnesses favored the creation in New York of a regional bank to serve a district including New York, New England, New Jersey, Delaware and part of Pennsylvania.

Secretary McAdoo suggested that such a huge bank here would overshadow the other regional banks, of which, according to the law, there must be at least seven. The reply was made that a bank of such size was needed here in order that it might command the respect of European bankers and hold its own with the great individual banks in New York.

Washington, Jan. 6.—A report was current that John Skelton Williams, assistant secretary of the treasury and chief adviser of Secretary McAdoo on all matters pertaining to the federal banking laws, will be nominated by President Wilson as governor of the reserve board, the body which will have the administration of the new banking and currency law.

Memphis, Tenn., Jan. 6.—Heading a large force of workmen, Mayor E. H. The train was running on a track the city officials ordered removed several days ago.

Dementicwn

We have been cruelly deceived. The guy who yesterday informed us that he had not broken one of his New Years resolutions, thereby leading us to believe that one of these days we'd have a story about the most remarkable man in the world, now comes forward and shatters our blissful dream. He didn't make any resolutions.

Here's a good thought for blue Monday. Even cider gets sour when it begins to work.

Going back to the subject of resolutions. It is said that a lot of men are quitting smoking because it is becoming effeminate.

By the way, did you ever stop to think what a mess you'd be in if all your prayers had been answered as you wished them to be?

Sea sickness is a strange disease. It makes you afraid you'll die, and then it makes you afraid you won't.

The Council Meeting

Schuler—There's another thing I want to ask about. This water works ordinance says that they must put in an air compressor in six months.

That time will be up the 18th of this month and they haven't started to do a thing yet. They paid a dividend of 3 per cent a while ago and later another dividend of 5 per cent. Etc., etc.

Brinton—Well, I wrote 'em Friday and here's what I wrote. (Reads copy of letter).

Schuler—I know all about it.

Brinton—You don't know a thing about it.

Schuler—I do.

Brinton—You don't.

Schuler—I do too. I know all about it.

Brinton—Well, if you know so much about it, tell it.

Schuler—Well, that's all right, but I know all about it just the same. A fellow told me all about it. (Short respite).

Brinton—Well, it will all come out in the wash.

Schuler—It won't come out in the wash. These things should be looked after.

Brinton—Call that stenographer in here. (As young lady enters he asks her) Didn't I dictate that letter to the water company Saturday?

Stenographer—Yes, sir.

Brinton—That's all. You know we have to show Mr. Schuler about these things.

Schuler—You bet you do. I'm from Missouri when it comes to things in your department.

Brinton—Don't you think you've got enough to look after down the streets?

Schuler—And I ain't going to do that any more. You can appoint somebody else in my place. Here I've used my car to haul you folks all over town, and that's the thanks I get for it.

Brinton—Well, I'm sorry I didn't please you Mr. Schuler, but I really don't see what you're going to do about it.

LABOR LEADERS ARE ANGRY

May Attempt to Return "Mother" Jones Despite Militia.

Denver, Colo., Jan. 6.—Preparations were being by union officials for the return of "Mother" Mary Jones to Trinidad and other points in the southern strike zone whence she was deported by state troops. Governor Ammons said General Chase considered he had good cause for his summary action in ordering "Mother" Jones' deportation. At union headquarters here there was much indignation on the part of labor leaders, who declared it an insult to women that "Mother" Jones, the "angel of the camp," should have been "manhandled" by troops, and insisted that she should return to defy the military authorities.

FERRIS ASKS FACTS
IN MINE TROUBLE

Will Bare Conditions to Public If He Is Unable to Negotiate Peace.

ALL HEARINGS TO BE OPEN

Many New York Gunmen Leave Copper Country When Governor Arrives on Scene—Miners' Leaders Meet Moyer.

Houghton, Mich., Jan. 6.—Governor Ferris has taken hold of the strike situation in the copper country. With his coming a practical truce went into effect and both sides expressed a willingness to await his findings before initiating new measures in the industrial warfare.

The governor's announcement that he hoped to find some method of settling the struggle between the copper mine owners and the Western Federation of Miners failed, however, to influence the attitude of defiance toward each other which the opposing interests have held for five months.

The union's representatives announced they would be on the defensive so far as settling the strike was concerned.

"We made enough concessions when John B. Densmore of the federal department of labor was here last week," said O. N. Hilton, chief of counsel for the federation.

Open hearings are to mark the governor's investigations, he announced on his arrival.

Private Policemen Leave.

It was noticed that an exodus of private policemen has begun. John T. Vickery took 49 of these men back to New York. They had been employed at the properties of the Mohawk and Ahmeek companies in the northern end of the strike zone.

"I came to seek information," the governor said, addressing the crowd. "I promise nothing, but it is time that the warring elements of this community get together and learned once more how to live as neighbors. My prayer is that this peace may come speedily."

Both factions cheered the governor. To interviewers a few minutes later Governor Ferris intimated that his visit was occasioned by his inability to get satisfactory answers to questions at the conference with labor leaders in Lansing last Thursday.

"When I ask how many miners are at work, how many are on strike or how many imported gunmen are in the district, I want to know exactly those facts. I think I can get this information and what else I need to know within the next 48 hours."

"So far as a settlement is concerned, I have no new plan to suggest. I hope my humble persuasive powers may bring the strikers and companies together, but if I fail then I shall say exactly what I think of the situation and let the public judge."

The governor's program today calls for public conferences with the sheriffs, chairmen of the boards of supervisors and prosecuting attorneys of Houghton and Keweenaw counties. He also will seek an interview with Judge P. D. O'Brien of the circuit court, who is in L'Anse, seat of Paragon county, hearing the numerous cases growing out of the strike, sent to that jurisdiction on change of venue from Houghton county.

Miners' Leaders Meet Moyer.

Chicago, Jan. 6.—Summoned to Chicago by Charles H. Moyer, president of the Western Federation of Miners, members of the executive board of the organization met in conference today with their wounded leader. Moyer was in conference throughout the greater part of the afternoon with Clarence S. Darrow, labor attorney, and John B. Densmore of the department of labor. Probability of a nationwide "protest strike" involving the United Mine Workers of America and the American Federation of Labor was scouted by both Mr. Darrow and Mr. Moyer. Charles E. Mahoney, vice-president of the Western Federation of Miners; Guy E. Miller, Yanco Turzick and William Davidson are the members of the executive committee who attended the conference. John Mitchell, former president of the United Mine Workers of America, and Mr. Darrow also were present.

TAX FORM IS ISSUED

Treasury Tells How Returns Must Be Given.

Rigid Penalty Provided for Those Who Attempt to Deceive in Their Reports.

Washington, Jan. 6.—The form to be used and regulations to be followed by individuals in making returns of income subject to the new federal income tax were sent out by the treasury department.

Where the tax has been withheld on part of the income at the source, or where part of the income comes as dividends upon stock of a corporation which is taxable under the corporation tax section of the law, the regulations set forth that such income shall be deducted from the individual's total income when computing the amount on which he is taxable.

Return must be in the hands of the collector of internal revenue in the district where the payee lives or where he has his principal place of business not later than March 1. Failure to observe this time limit to be punished with fines ranging from \$20 to \$1,000.

Refusal or neglect to file returns, except in case of sickness or absence, will result in an addition of 50 per cent. to the tax assessed. In case of false or fraudulent return 100 per cent. will be added to the tax assessed, and any person required to make, render, sign or verify such return who makes a false or fraudulent statement with intent to defeat or evade the tax will be guilty of a misdemeanor and subject to a fine of not more than \$2,000 or imprisonment for one year or both.

An extension of 30 days from March 1 in case of sickness or absence may be allowed by the proper collector.

The farmer is required to include in his net income all money from produce and animals sold and for wool and hides of slaughtered animals, provided they are sold. He may deduct the sums actually paid for the animals sold or slaughtered during the year, but the value of animals raised shall not be deducted as expenses or loss. The farmer also may deduct money paid as expenses for producing farm products, live stock, etc., and for repairs for the current year. The cost of tools or machinery is deductible provided it does not exceed in value those replaced.

Persons receiving fees or emoluments for professional or other services must include all actual receipts for services during the year, together with all unpaid accounts, charges for service or contingent income for the year "if good and collectible."

In computing net income compensation of all officers and employees of a state or any political subdivision thereof shall be excluded, but not where paid by the United States.

INTERMEYER ASKS
TRUST BOARD CURB

New York Lawyer Wants National Industrial Body to Regulate Corporations.

WOULD PUNISH OFFENDERS

Tells Manufacturers in Chicago That Action of J. P. Morgan & Co. of New York Is an Unsubstantial Benefit.

Chicago, Jan. 6.—A powerful federal executive body to administer the Sherman anti-trust law is the prime remedy for the country's financial ills, according to the statement of Samuel Untermyer at a luncheon of the Illinois Manufacturers' association here. Mr. Untermyer was the counsel for the Pujo committee, which recently investigated the "money trust." The subject of his address was "A Legislative Program to Restore Business Freedom and Confidence."

Mr. Untermyer ridiculed the court "dissolution" of the Standard Oil trust as "flagrant and pitiful," with no restoration of competition among the component companies. He also gave warning against lodging in the attorney general the power of negotiating "consent decrees" like that which has broken up the American Telephone and Telegraph company.

Lodge Power in Board.

There must be, however, he said, an executive authority to assist the courts and the attorney general in the practical application of laws to liberate business from the thralldom of illegal combinations, and this authority Mr. Untermyer would give to the industrial commission. The speaker did not recommend any plan for the appointment of the commission.

Mr. Untermyer directed the attention of the business men who heard him to the fact that anti-trust legislation is the next big problem to which the national administration must devote its energies. Business men, he said, should co-operate with congress in a spirit of patriotism and not in the attitude of hostile criticism which characterizes utterances by banking organizations and individual leaders before the passage of the income tax and currency measures.

Against "Dummy Boards."

In addition to a law for the industrial commission, Mr. Untermyer said congress should pass bills embodied in the 22 recommendations of the Pujo committee, dealing with banks, interlocking directorates, stock exchanges, clearing houses and the administration of the Sherman act.

At one point, talking about "dummy" directors, he referred to the withdrawal of the house of Morgan from participation in the affairs of 28 corporations and said it is "most unsubstantial."

FLORENCE SCHENCK TO BE DEAD

Court Acts Too Late to Benefit Wronged Woman.

New York, Jan. 6.—Florence Schenck, after seven years of bitter estrangement, is dead at her father's home in Norfolk, Va.

Before the news was known to Supreme Court Justice Gavegan he had handed down a decision which will permit the relations of the dead woman to carry on her suit for \$50,000 damages against Charles H. Wilson, manager of the show horses belonging to Alfred G. Vanderbilt, who eloped with her after, as she alleged, falsely representing himself as a single man.

WOMEN MARCH IN GALE

"Gen." Jones Refuses to Quit—Carried Into Hotel.

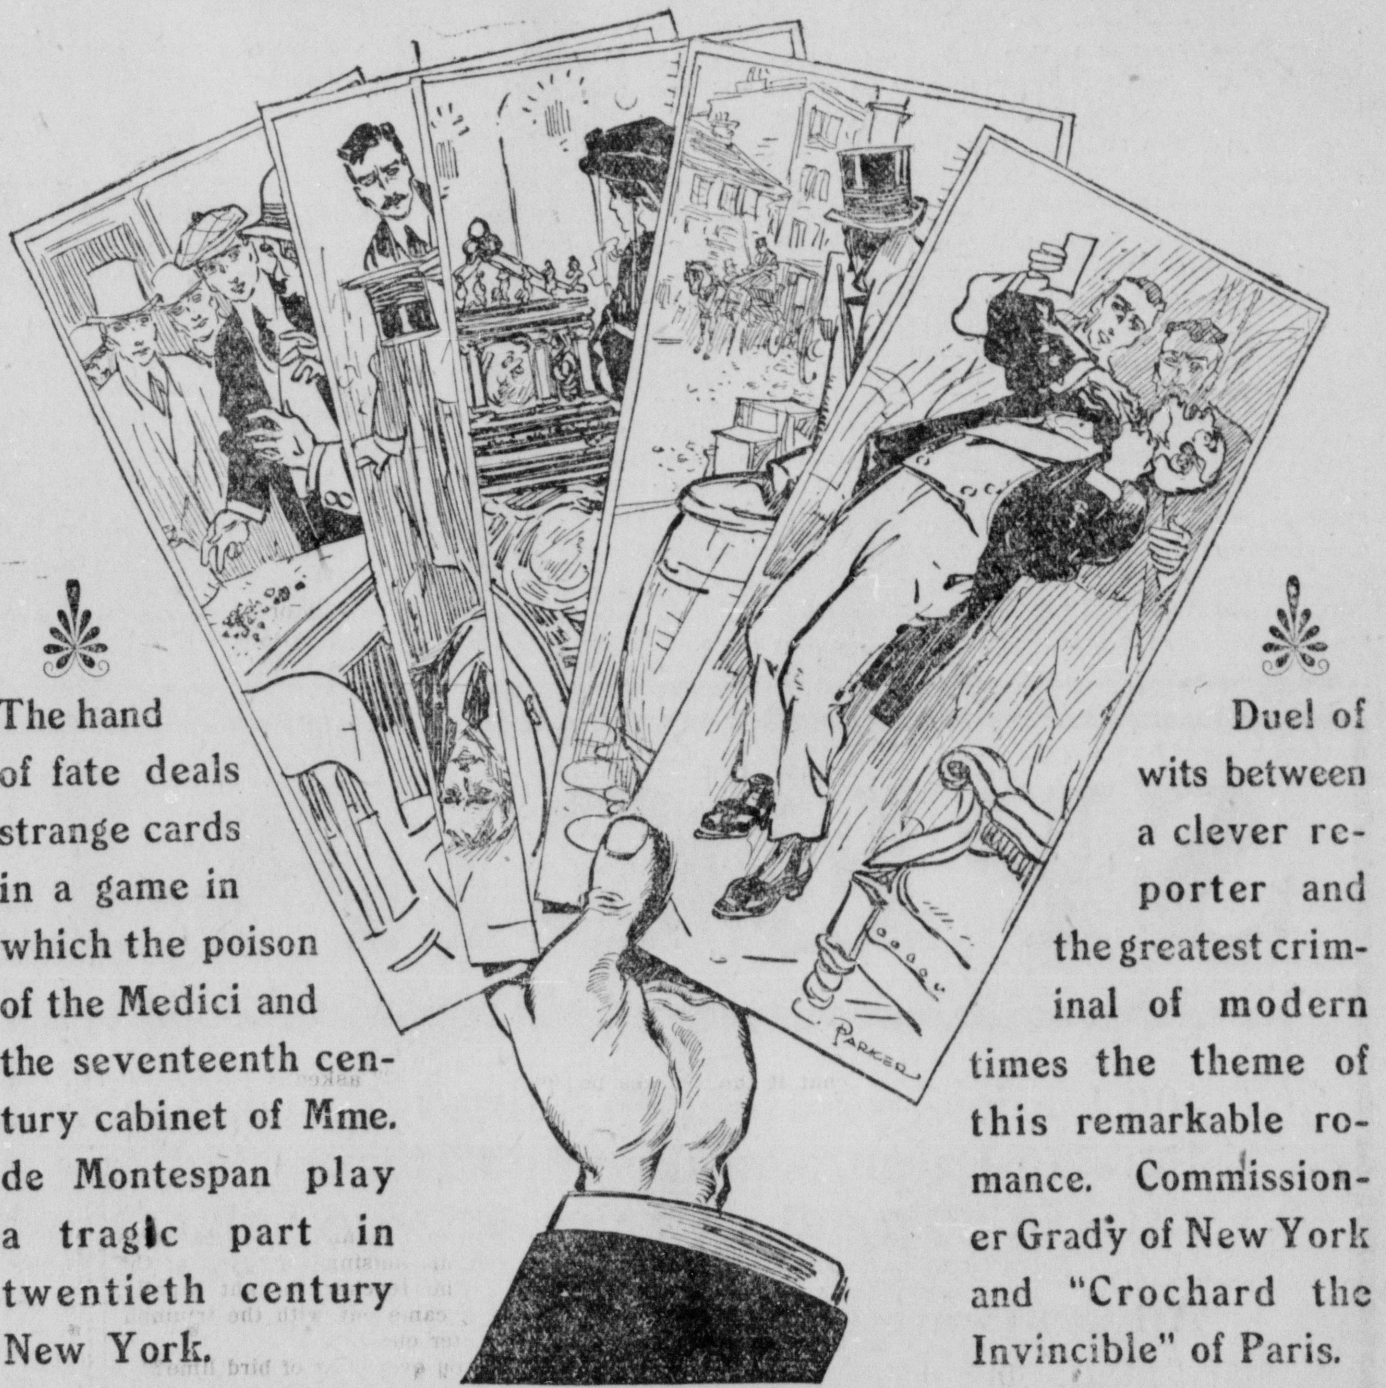

Catskill, N. Y., Jan. 6.—Footsore and tired from constant battling with sleety roads and a heavy gale, the suffragette army under Gen. Rosalie Jones had the hardest day of the march from New York to Albany.

The first handicap came when at Saugerties the marchers were met by a large band of boys armed with snowballs. They were rescued by the police. Then General Jones was overcome with such serious exhaustion that it was necessary to carry her into the hotel. After a short rest she refused to give up the struggle and the army was ordered forward.

The Mystery OF THE Boule Cabinet

A Masterpiece of Detective Fiction By BURTON E. STEVENSON

The hand of fate deals strange cards in a game in which the poison of the Medici and the seventeenth century cabinet of Mme. de Montespan play a tragic part in twentieth century New York.

Duel of wits between a clever reporter and the greatest criminal of modern times the theme of this remarkable romance. Commissioner Grady of New York and "Crochard the Invincible" of Paris.

This Newspaper Desires to Announce That It Has Secured "The Mystery of the Boule Cabinet" For Use as a Serial. The Opening Chapters Will Be Published Soon.

JOHN B. DENSMORE

John B. Densmore, the new solicitor of the United States department of labor, who has been in Calumet, Mich., as the government's representative in the effort to end the copper mine strike by mediation. Mr. Densmore, who was born in Iowa and educated in Indiana, is thirty-six years old.

CHANGE PLEASURES U. S.

Britain Removes Sir Carden From Mexico.

Removal Result of Representations by U. S. to British Foreign Office.

Washington, Jan. 6.—Announcement that Great Britain was about to transfer Sir Lionel Carden was regarded by official Washington as a substantial manifestation of the purpose of the British government to remove every obstruction to the execution of the plans of President Wilson for dealing with the Mexican situation. It was learned that Ambassador Page sought information at the British foreign office some time ago regarding the attitude of its representative in Mexico. Officials expect the transfer of the British minister to have a beneficial effect in impressing the Huerta government with the fact that there is to be no division among the powers from which it might expect to profit.

London, Jan. 6.—Sir Lionel Carden, British minister to Mexico, is shortly to be transferred to Rio de Janeiro as minister to Brazil. He was appointed to Mexico July 18, 1913, to succeed Francis William Strong.

The successor to Sir Lionel at Mexico City will probably be Charles Murray Merling, senior counselor in the British diplomatic service, now accredited to Turkey.

Although no reason for the change is given at the foreign office the transfer of Sir Lionel Carden recalls several instances of friction with Washington since he has been at Mexico City.

One grew out of Sir Lionel's action in presenting his credentials to Huerta on the day after President Wilson had formally communicated to the Mexican ruler his determination never to recognize his government.

Another was a published interview in which the British minister was quoted as saying the American representatives in Mexico "did not understand conditions."

PURE FOOD ACT IS UPHELD

Supreme Court of U. S. Hands Down Decision.

Washington, Dec. 6.—Declaring valid the regulations made by the federal food and drugs board for administering the pure food and drugs law, and extending its scope, the supreme court of the United States held that all packages of drugs must state on their labels, not only whether they contain certain drugs specified in the law itself, but also a large number of derivatives of these drugs suggested by the board.

States can hold safe deposit companies responsible for the collection of inheritance taxes or possessions held in the safe deposit boxes of patrons, according to a decision of the Supreme court. The constitutionality of an Illinois law placing responsibility on these companies was sustained.

Says Earle Hypnotizes Girl.

New York, Jan. 6.—Paul Herman, whose foster daughter, Charlotte, is under arrest in Norway with Ferdinand Pinney Earle for the kidnapping of Harold Erwin Earle, is preparing to go to Europe to bring the young woman home. "I am sure Charlotte is under Earle's hypnotic influence," Mr. Herman said at his home in Rutherford, N. J.

New Hyde Trial on Monday.

Kansas City, Mo., Jan. 6.—The fourth trial of Dr. B. Clark Hyde for the murder of Thomas H. Swope will begin next Monday.

U. S. EMBASSY IN MEXICO MAY CLOSE

Lind Reported to Have Advised Such Action to the President.

HUERTA READY TO RESIGN?

Rumor From Capital Says Dictator Will Quit Presidency and Take Charge of Army Against the Rebels.

City of Mexico, Jan. 6.—It is reported here that the United States embassy soon will be closed. It is said John Lind recommended such action in his interview with President Wilson. Another report is that Mr. Lind and Charge O'Shaughnessy have not worked in harmony.

Huerta to Quit Again.

That General Huerta intends soon to resign the presidency is persistently reported again. It is said he will take the field in person against the rebels after yielding the presidential office. Enrique Gerostieta, minister of justice, may be selected as Huerta's successor. He is said to have been offered the portfolio of foreign affairs with the understanding that he assume the presidency, but consented to the plan only on condition that the deputies imprisoned by Huerta on the dissolution of congress be set at liberty. He had many friends among the deputies and did not like Huerta's treatment of them.

Trevino to Reign Later.

Under the plan reported Gerostieta will hold the presidency only for a limited period, turning it over to Gen. Geronimo Trevino of Monterrey.

Trevino was the trusted officer of Porfirio Diaz. He has kept aloof from political developments of the last three years.

The release of 26 deputies New Year's day and the announcement of the early release of virtually all the other deputies in prison are pointed to as evidences of the possible truth of the presidential report.

Rebels Fear Ojinaga Trap.

Marfa, Tex., Jan. 6.—Hostilities between the Mexican federal army at Ojinaga and General Ortega's 6,000 rebels ceased suddenly. Ortega withdrew all his troops seven miles westward along the Rio Grande, supposedly to await the reinforcements from Chihuahua.

Lind May Get New Office.

St. Paul, Minn., Jan. 6.—There is a general understanding among Minnesota Democrats that John Lind will terminate his Mexican service by graduation into the regular diplomatic service. Therefore he may decline reelection to the presidency of the board of regents. His term expires next March.

URGES REFORM OF LAWYERS

Illinois Points Out Delays and Cures.

Peoria, Ill., Jan. 6.—Charging that the lawyers of Illinois have been Rip Van Winkles since 1845, leading to delay in the administration of justice, Robert McMurdy of Chicago, president of the Illinois Bar association, urged the necessity for an awakening and reforms in an address before the Peoria Bar association.

"The State Bar association," said Mr. McMurdy, "has now in the hands of the printer a draft of a bill prepared by the committee on law reform, which fairly compromises the differences between the demands of Chicago and the downstate districts, between the old school and the new school lawyer, between the standstill and the move-over."

"It is a step in the right direction, and involves a cardinal principle in law reform now generally accepted by the members of the profession who have given special thought to the subject."

"The bill, like previous ones, lodges in the supreme court the power to fix rules of practice not inconsistent with statute law."

URGES INQUIRY FOR UNION

Keating Asks Congress to Inquire Into Colorado Trouble.

Washington, Jan. 6.—Investigation of the charge that Harry Ratcliff, superintendent of federal forest reserves at Steamboat Springs, Colo., led a mob that took strikers out of jail and deported them was demanded by Representative Keating of Colorado. Keating demanded that if the charges be sustained Ratcliff be removed.

Telegrams received by Keating and other members of the Colorado delegation regarding the deportation of "Mother" Jones and others active in the coal strike will be submitted to congress in support of the pleas for a congressional investigation into all phases of the strike.

IDLE BALK AT ROCK PILE

Five Men Out of Five Hundred Willing to Earn \$1.50 a Day.

Portland, Ore., Jan. 6.—Portland's attempt to solve the unemployed problem by providing a municipal rock pile with a flat wage rate of \$1.50 a day failed utterly. Out of 500 men who have been given free sleeping quarters 50 applied for work, but only 12 reported at the rock pile. Seven of the latter quit within the first hour.

Dramatic Notes

MISS MADGE SMITH, AT FAMILY

FAMILY THEATRE

The bill at the Family this week includes Miss Madge Smith, a clever singer, dancer and yodeler, who has a pleasing personality and a good voice. The Empress Comedy Four, male singers, render a number of good selections interspersed with comedy. Pictures tonight: The Coming of Little Sunbeam; Mike, Jake and the Wild West, and A Woman's Strategy.

PRINCESS THEATRE.

Wednesday night the Princess will show a 2 reel feature entitled, The Buried Past, a sensational western drama with a wonderful moral, together with fine acting and excellent photography.

WHERE THE TRAIL DIVIDES.

Where the Trail Divides, a western play that breathes the spirit of the west when it was new, was presented at the opera house to a large audience. Edward Helms as the Sioux Indian who attempts to overcome the race prejudice by marrying a white girl, was easily the star of the production and gave a fine portrayal of the character. He also brought to the surface all that is desirable, good and wholesome: his love was noble and his fine dignity and calm bearing gained the closest attention of his hearers. The supporting company was fair.

A great deal of annoyance was caused last evening by young men who left the theatre and returned after the performance had started, and Manager Baker stated that hereafter this would be eliminated by the appointment of a special officer for the house.

YANKEE DOODLE STOCK CO.

The Yankee Doodle Stock Co., at the opera house the evening of Jan. 8, offers a novelty, the latest New York and Chicago craze—tabloid plays. A tabloid play is a condensed version of a three or four act comedy or drama played in one act. It is very popular in the big cities for the fact that one is not forced to sit through a long drawn out play, two hours of which are given to explaining the plot. In tabloid the entire play is given in 40 or 50 minutes, no waits for explanations, etc. The Yankee Doodle Stock Co. will offer these tabloid plays Thursday evening, the first being A Romance of the Hills and the second being Ma's New Boy. Three acts of high class vaudeville will also be presented. Reserve your seats ahead to make sure to get them.

From a School Teacher, Too.

This is silly stuff from a school teacher:

"How do the little birds stick their nests together?" asked the inquisitive pupil.

"Is it possible that you don't know?" exclaimed the teacher, using a well known bluff for the purpose of gaining time.

"I don't know, an' I want to," was the uncompromising statement of the pupil. The teacher thought rapidly, and then came out with the triumphant counter query:

"Did you ever hear of bird lime?"

"No, I have no desire to have a great fortune."

"Then what do you want?"

"I'd be perfectly happy if I were rich enough to give my wife an allowance every week, instead of having to take my pay envelope home intact and receiving an allowance from my wife."

THE PROOF THAT DIXON READ-

What could furnish stronger evi-
 dence of the efficiency of any remedy
 than the test of time? Thousands of
 people testify that Doan's Kidney
 Pills have brought lasting results.

Home endorsement should prove
 undoubtedly the merit of this rem-
 edy. Years ago your friends and
 neighbors testified to the relief they
 had derived from the use of Doan's
 Kidney Pills. They now confirm their
 testimonials. They say time has com-
 pleted the test.

Mrs. J. Helfrich, R. F. D. No. 4,
 Dixon, Ill., says: "I can strongly
 recommend Doan's Kidney Pills and
 I am glad to confirm the statement
 one of my family gave in their
 praise some years ago. For a long
 time he suffered from irregular ac-
 tion of his kidneys. He also had back
 ache and found relief only when he
 used Doan's Kidney Pills, that he
 got at Leake Bros. Co.'s Drug Store.
 They stopped the pain and made his
 kidneys normal."

Price 50 cents, at all dealers.

EVERY INCH A MAN

More Light on the "Wild Man" of
Borneo.

Morals of This Personage Superior to
Races in Same State of Civiliza-
tion—His Wife, Child, Dog and
Flea, Well Known.

We all have heard of the Wild Man
of Borneo and his dog and his child
and his wife and the rest of his belongings
as enumerated in the ditty of our
childhood, and now comes a description
of his characteristics, which prove to
be queer enough, from an English
clergyman who knows the wild man
better than the late Phineas T. Bar-
num, who first exhibited one of him
in the United States, ever did. The
clergyman, says the Detroit Free
Press, is Rev. Edwin H. Gomes, who
has spent 17 years among the Sea
Dyaks, or wild men of Borneo, and
whose account of them is highly enter-
taining.

According to Mr. Gomes, who is now
in London, George Washington would
be canonized by the wild men of Borneo
did they happen to know that such a
person ever existed, for they are al-
most, if not quite, the most truthful
race on earth. So disgraceful, in fact,
do they consider the deceiving of others
by an untruth, that such conduct is
handed down to posterity by a curious
custom.

"They heap up a vast pile of branches
of trees in memory of the man who
has uttered a great lie," says Mr.
Gomes, "so that future generations
may know of his wickedness and take
warning by it. The persons deceived
start the tugongbula—the liar's mound—
by heaping up a large number of
branches in some conspicuous spot by
the side of the path leading from one
village to another. Every passer-by
contributes to it, and at the same time
curses the man in memory of whom it
is."

The Dyaks, who used, of course, to
be head hunters, but are not now to
any extent, would also apparently
agree with Punch's famous answer to
the question: "Is life worth living?"
which was "It depends on the liver,"
for in Dyakland this much maligned
organ, instead of the heart, is sup-
posed to be the seat of the various
qualities and emotions.

"When," says Mr. Gomes, "the Dy-
aks wish to describe the great courage
of a man, they say he has a 'brave
liver.' Intelligence also resides in the
liver, and a man of knowledge is one
possessing an 'enlightened liver.' Kind-
ness is the quality of the man who has
a 'large liver,' and perseverance
that of one who has a 'hard liver.' A
weak, undecided man is spoken of as
one who has a 'soft liver.'"

Logic appears to be the wild man
of Borneo's weakest point.
"The most contradictory opinions,"
says Mr. Gomes, "seem to dwell to-
gether in perfect harmony in the tur-
gid stream of his mind. He cannot dis-
tinguish between coincidence and
causation, and will argue that because
his grandfather died after he had
climbed a tree, therefore his death
was caused by his climbing the tree,
and consequently neither his father
nor himself nor his children are to
climb trees if they wish to enjoy
health."

"The faculty of moral perception is
so indefinitely latent among the Dy-
aks," adds Mr. Gomes, "that one is in-
clined to say that they possess no con-
science. In spite of this, in his jungle
home the Dyak is remarkably honest.
Families are often away from their
homes for weeks at a time, and though
no one is left in charge of their rooms
in the long village house, things are
seldom lost. Sometimes Dyaks be-
come demoralized by associating with
other races in the towns, but a case of
theft among the Dyaks in their native
wilds is indeed rare."

This reverend student of the wild
man of Borneo winds up by saying
that, notwithstanding his lack of initia-
tive and other faults, a consideration
of his thoughts, customs, belief and
ideals shows that he is every inch a
man, that his mental powers are equal
to those of other races in the same
stage of civilization and his moral
character far superior to theirs.

Why Live in the City?

I have seen a great many farmers
retire at the age of fifty years or
thereabouts. After a life of hard toil
and scrimping they go to town to live.
They may be worth, perhaps, \$20,000,
but what does a life of leisure in town
mean to such people? If they had
broadened out a little on the farm
they would get more out of life when
they came to retire. But why should
any sane individual wish to quit life
on the farm for an existence in the
village? Don't search me for the an-
swer. If they have to move in order
to get school advantages for their chil-
dren that is another thing, but if they
are able to retire they are able to keep
an automobile and give the children a
refreshing ride to town and back every
day. The truth is the man who can
retire from the farm is the one who
can best afford to remain on it and
raise his children in the country.

Should Play Football.

"I don't understand what makes you
bow so politely to Ethel's father," re-
marked the substitute guard, "espe-
cially after the treatment he gave you
the other night when he ejected you
from the premises."

"Enthusiastic!" replied the captain
of the football team. "I should say I
was! Why, that old duffer has the
most wonderfully developed 'kicking
too' I ever encountered!"

POSSIBILITIES IN POPCORN.

Popcorn is a truly delightful dainty
which has been enjoyed by small and
great for ages past. As the winter
evenings approach, which shut us in
around the cozy fire, we can indulge
in the pastime, so well beloved by the
children and their elders as well, of
popping corn. A wire popper over
coals is the ideal way of popping corn,
as one may see the process and watch
each white, fluffy ball of deliciousness
prepare itself for its journey "down
the little red lane."

Cracker Jack is such a favorite with
the little people that every mother
should know how to enhance her popu-
larity by being able to prepare it.
The addition of nuts to the following
recipe will give us the home-made
Cracker Jack.

Popcorn Candy.—Put a half cupful
each of brown and white sugar into a
saucepan, add a tablespoonful of vine-
gar and a quarter of a cup of water
with a tablespoonful of butter when
the candy has cooked to the hard ball
stage. Pour this boiling hot over a
dish of freshly-popped corn, with all
the hard kernels removed. Stir while
pouring, so that each kernel is well
coated over.

Popcorn Balls.—Take three-quarters
of a cupful each of brown and white
sugar, half a cupful of molasses and
half a cupful of water and a table-
spoonful of vinegar. Add a table-
spoonful of butter, and butter the
saucepan before adding the ingredi-
ents. Let this boil without stirring
until it makes a hard ball when a bit
is dropped in water. When it spins
a thread, add a quarter of a cupful of
butter. Just before taking off add a
fourth of a teaspoonful of soda; pour
in a fine stream over the popcorn, stir-
ring to have it evenly mixed. Take
up handfuls of the corn and press into
balls, dipping the hands into water
each time to keep them from sticking.
Work quickly, before the mass hard-
ens. Keep the balls in a cold place,
as they soften and become tough in a
warm room. Wrap in waxed paper.

Buttered Popcorn.—Into a deep ket-
tle with a close-fitting lid, put two
tablespoonfuls of lard or butter, or half
of each. When the fat is melted, add
a half cup of corn; stir until the corn
is evenly coated with fat, and then
put on the lid, shaking the pan all the
while.
